Nick from CapturePoint (aka, Authentic Reductions) has lost their link to their submission OneDrive folder, could one of you share that with him, please.

I don't think anyone still has the link, if you could provide that it would be great.

Thanks again

Okay, yes, that is what I thought.

You guys already have a CBI protected OneDrive folder that has been set up. We currently have some site characterization documents that you all have submitted. Do you not have the link to it anymore?

Hey Nick,

Was CapturePoint going by a different name at some point?

Hi Ian, I was curious if you would have some time before Thursday to meet with Krishnan and I to discuss how CPS can best manage submissions with respect to confidential business items and the GSDT. And how we can get connected to an EPA administered SharePoint folder for Region 6 Class VI permit application documents.

Let me know if this week works for you and when is a good time.

Many thanks

Nick
